

Na-PCA Product Line VITA PLUS™ PREMIUM PRODUCT

Indulge your skin with our Ultra Hydrating Moisturizers, enriched with the Na-PCA enzyme to provide intense hydration and restore radiance to your skin. This is a lightweight formula that absorbs quickly for men and women.

Formulated with elastin, collagen and RNA that locks in moisture and leaves your skin looking radiant. Available in lotion or spray.

What is Na-PCA? It's a natural enzyme in your skin. As you get older, your skin begins to lose its natural supply of Na-PCA. Without Na-PCA your skin can no longer retain moisture. That's important. It's moisture, not oil, that makes your skin look younger, softer, more radiant.

Na-PCA, The Skin Solution moisture replacement complex, has advanced hygroscopic properties that draw moisture from the air into your skin and softens as never before.
